## for International Non-Degree Research Students for AY 2021 Admission (2020/7 updated)

Non-degree research students are those persons who conduct research about a specific research topic under the guidance of an academic advisor. Upon receiving permission from their academic advisor or the instructor(s) in charge of courses, Non-degree research students are allowed to attend courses related to their research topic, but they cannot earn credits nor are they eligible to receive Master's or Doctoral degrees. Prior to application, applicants must obtain the informal consent of the academic advisor under whom they wish to study during their research period at our university. The selection is made by a screening of the application documents so the applicant is not required to come to Japan for the selection. Eligibility criteria clarifies that Non-degree research students must have bachelor's degree, and it is defined that the major purpose for being a Non-degree research student is to prepare for the graduate school admission.

### 1. Application qualifications

- (1) Persons who have graduated from a Japanese university or are expected to graduate before the admission period.
- (2) Persons who have completed a 16-year school curriculum in a foreign country (or an 18-year school curriculum if they desire to enroll in the Doctoral Program in Medical Sciences) or will complete before the admission period.
- (3) Persons who have been granted a degree corresponding to a bachelor's degree and persons who are expected to be granted a degree corresponding to a bachelor's degree in the relevant year by completing a program where the course term is 3 years or more (for the Doctoral Program in Medical Sciences, 5 years or more) in overseas universities or other overseas schools (in regard to the general situation of education and research activities, etc., limited to those designated separately by the Minister of Education, Culture, Sports, Science and Technology as those assessed by persons authorized by relevant overseas governments or institutions concerned or anything equivalent thereto)
- (4) Persons shown to have an equal or greater academic ability than graduates of a university by means of a screening on application qualification conducted in the graduate school of our university.

Note: Persons who intend to apply as (4) of the application qualifications must contact the Division of Student Exchange, Department of Student Affairs in advance.

### 2. Admission timing and submission periods of application documents

| Admission timing | Submission timing (Web application)                      | Submission periods of the application documents<br>(MUST RESEARCH US) |

### 3. Research Period

The initial research period cannot exceed the academic year for which the applicant was granted admission. At our university, the academic year begins in April and ends in March of the following year. Consequently, regardless the date of admission (April, October or December), the initial research period will end in March of the following year of the year of admission irrespective of the applicant's circumstances. If you wish to continue your research afterwards, you must apply for and obtain permission to extend your research period. The total research period cannot exceed two consecutive years.

### 4. Application method

#### (1) Application Submission Method

①The application must be made on the web entry system linked below.

**Research Student Admissions WEB Entry; <https://kenkyusei-entry.ap-graduate.tsukuba.ac.jp/top>**

②Downloaded application form must be printed into 2 copies(①.&②). After making sure that your signature is put on the both copies, send them to university along with other necessary documents by registered mail. Refer to (2) for more details on application documents.

#### <IMPORTANT>

- Before applying, establish sufficient contact with the faculty member of university about your research plan, Japanese language proficiency, etc. to obtain his/her informal consent to be your prospective academic advisor. He/she will notify you of the reference number which is required to be entered during the web application process.
- You should contact a faculty member 2-3months in advance of web application, considering that it may take some time before your reference number is provided even after getting the prior consent.
- Please visit our website to learn how to contact the prospective academic advisor.  
<http://www.tsukuba.ac.jp/admission/international/research-students.html>

#### NOTE:

### 5. Announcement of Selection Results

For the announcement of selection results, only the examinee numbers of successful applicants will be posted to the website of international Non-degree research students.

URL; <https://www.tsukuba.ac.jp/en/study-tasukuba/research-students>

### 6. Application Fee, Admission Fee, and Tuition (current as of AY 2020)

| Application Fee | Admission Fee | Tuition                                   |
|-----------------|---------------|---|
| 9,800 yen       | 84,600 yen    | 29,700 yen (per month) × research period※ |

The Admission Fee and Tuition (29,700 yen/month × research period※) must be paid together at the time of the admission formalities. The Application Fee, Admission Fee and Tuition once paid will not be refunded. The Application Fee, the Admission Fee and the Tuition are subject to change.

※Until the end of the academic year (the end of March) that applicant was granted admission. Please check [ 3. Research Period] for detail.

### 7. Others

Non-degree research students can conduct research about a specific research topic and attend Japanese language training courses offered at the Center for Education of Global Communication (CEGLOC) through the prescribed procedures. Students can start the Japanese language training courses twice a year, in April and October. Please note that in the case of enrolling in December 2021, there are no Japanese language training courses open from December.

### 8. Visa (Certificate of Eligibility) – To successful applicants

Those who passed the selection of international Non-degree research students need to obtain a “student visa”. You can apply for a student visa at the Embassy or the Consulate General of Japan in your country.

To get a student visa quickly, you need to obtain a “Certificate of Eligibility” (hereinafter referred to COE) in advance. The application for COE should be made at the Regional Immigration Bureau of the Ministry of Justice of Japan. However, it is not allowed to send necessary documents to Immigration Bureau directly from overseas. Therefore, the University of Tsukuba will apply for new students’ COE on their behalf.

As soon as the result of the selection comes out, we will go to the Immigration Bureau to apply for a COE to make it in time for your enrollment. Thus we would like you to send necessary COE application documents along with international non-degree research student application documents at the same time of application for research students within the time limit of submission of application documents. Note that the required documents for COE application are not used for the selection of international non-degree research students. If you do not pass the selection, all the COE application documents you sent will be returned to your address with a rejection notice.

The required documents list is indicated on the next page. Please check it carefully. In addition, please note that when we find any false information on your application documents, we cannot be a proxy for your COE application. Furthermore, the following people also can be your proxy for COE application: Your relatives or the person who is going to support your study and living expenses living in Japan. If any of them will be your proxy, please contact us with the email address indicated at [10]. If you already live in Japan and need to change your visa status to “Student” or need to extend your current student visa, please contact us with the email address indicated at [10].

\*As soon as the result of the selection comes out, we will submit your COE application to the Tokyo Regional Immigration Bureau immediately. Hence, if you would like to decline admission before entering, please contact us with the email address indicated at [10]. We would appreciate your careful consideration and preparation before starting the application to avoid early drop out of the course.

Please consider carefully before starting the application not to decline admission after the examination result announcement.
