T-LSI Special Seminar

Translating Stem Cell Research: Challenges at Front Line

Prof. Hiromitsu Nakauchi

*School of medicine, Stanford
University/The Institute of Medical
Science, The University of Tokyo*

Prof. Nakauchi is a world authority on the field of stem cell research. In this talk, he will introduce the induced pluripotent stem cell (iPSC) technology-based projects aiming at clinical use.

June 6, 2019, Thu, 16:00-17:30

Venue : Rm 511, Innovation
Medical Research Institute,
University of Tsukuba

※Students, faculties and staffs
outside T-LSI program are
welcome to attend.

※The seminar will be given in
English.
