

## University Spin-offs

University spin-offs, an effective way to transfer research findings to the general public, have become more and more prevalent in recent years. At the University of Tsukuba, the Tsukuba Industrial Liaison and Cooperative Research

Center is the centerpiece of promoting the establishment and activity of spin-offs. The university not only leads the nation in establishing new spin-offs, but also has a number of promising new ones.

No	Company Name	Main products or services
1	Fluency Laboratories, Inc.	Research and development of software and systems based on Fluency theory
2	CONTENTS Co., Ltd. <a href="http://www.contents-jp.com/">http://www.contents-jp.com/</a>	High-resolution image data production technology, digital replica, and high speed Web delivery contents production
* 3	IGEL Co., Ltd <a href="http://www.igel.co.jp/">http://www.igel.co.jp/</a>	Consulting of integrated Linux, consulting of international standardization, etc.
4	Tsukuba Brains Corporation <a href="http://www.t-brains.com">http://www.t-brains.com</a>	Umbilical cord blood bank for individuals (cryogenic preservation)
5	MRTechnology, Inc. <a href="http://www.mrtechnology.co.jp/">http://www.mrtechnology.co.jp/</a>	Designing, manufacturing, and selling portable MRI technology
6	EnBioTec Laboratories Co., Ltd. <a href="http://www.enbiotec.co.jp/">http://www.enbiotec.co.jp/</a>	Creating new products and technologies that solve environmental issues by integrating biotechnologies with state-of-the-art technologies including sensor technology and IT
7	Marketing Excellence <a href="http://www.marketingex.com/">http://www.marketingex.com/</a>	Consulting
8	Microphase Co., Ltd. <a href="http://www.microphase.jp/">http://www.microphase.jp/</a>	Carbon nanotube composite equipments, fuel cell development
9	MEDIASTICK, INC. <a href="http://www.mediastick.co.jp/">http://www.mediastick.co.jp/</a>	Developing information media, service networks, security services
10	Wise and Technology Co., Ltd. <a href="http://www.wizz-tech.co.jp">http://www.wizz-tech.co.jp</a>	Software development, hardware manufacturing and development
* 11	Youworks Corporation <a href="http://www.youworks.jp/">http://www.youworks.jp/</a>	Fruit and vegetable traceability services, entrusted software development, developing and selling bio-imaging software
12	Logosware Corporation <a href="http://www.logosware.com/">http://www.logosware.com/</a>	Creation of e-learning contents and system development, development of web communications systems, etc.
13	Cell-Medicine, Inc. <a href="http://www.cell-medicine.com/">http://www.cell-medicine.com/</a>	Development of medical treatments against cancer
14	Applied Cell Biotechnologies, Inc. <a href="http://www.acbio.co.jp/">http://www.acbio.co.jp/</a>	Providing customized medical and esthetic services using autologous cells
* 15	Information Infrastructure Laboratory, Inc. <a href="http://www.iil-inc.com">http://www.iil-inc.com</a>	Developing software that allows the smooth rendering of images and sounds
* 16	Clear Stream Japan <a href="http://www.csj.join-us.jp/">http://www.csj.join-us.jp/</a>	Teaching junior athletes through coaching and practical experiences
17	Iwashiyama Bio-Science Co., Ltd.	Design, production and sale of equipments for microorganism cultures and equipment for food analysis
18	HID Inc. <a href="http://www.hid-fitness.com">http://www.hid-fitness.com</a>	Researching, developing, manufacturing and marketing health and nutritional products, medical products, and medicated cosmetics that use natural ingredients such as herbs and plants along with researching, developing, and implementing exercise therapies
19	Tsukahara Bokujou Co. Ltd. <a href="http://www.meishanton.com">http://www.meishanton.com</a>	Production, processing and sale of pork meat based on new standard sale methods that take into consideration environmental preservation
20	Tsukuba Wellness Research Co., Ltd. <a href="http://www.twr.jp/">http://www.twr.jp/</a>	Planning and implementing health management programs for middle aged and elderly people
21	MCBI Inc. <a href="http://www.mcbi.co.jp/">http://www.mcbi.co.jp/</a>	Support of personalized health and medical treatment (development, production and sale of illness condition evaluation systems and in-vitro diagnostic systems, and support of personalized health and medical treatment using databases), etc.
22	Tsukuba Technology Seed Inc.	Supporting and mediating the commercialization of research results of universities and research institutes
23	Tsukuba Secure Network Research Co. Ltd. <a href="http://www.tsnr.com/">http://www.tsnr.com/</a>	Contracting, consulting and systems development of computer maintenance and operations with a focus on security
* 24	TECHREVO Inc. <a href="http://www.techrevo.com/">http://www.techrevo.com/</a>	Web design, web applications, autonomous server web hosting, consulting, media creation (CD, DVD, VHS), planning, creating and selling video programming, etc.
* 25	SoftEther Corporation <a href="http://www.softether.com/jp/">http://www.softether.com/jp/</a>	Developing and providing technical support for virtual private network (VPN) software (Packetix VPN 2.0) along with developing and providing software and services in other fields
26	Research Institute of Tsukuba Biotech Ltd. <a href="http://www.maekawabio.org/">http://www.maekawabio.org/</a>	Development and utilization of biomass conversion substances of biological resources
27	Placemaking Research Institute <a href="http://www.placemaking.jp">http://www.placemaking.jp</a>	Managing events and planning using the concept of space design, urban management research and design
28	Nano Beam Co., Ltd <a href="http://nano-beam.com/">http://nano-beam.com/</a>	Research and development of the light sources needed for semiconductor microfabrication
29	Sun Care Fuels Corporation <a href="http://www.suncarefuels.com/">http://www.suncarefuels.com/</a>	Research and development of biodiesel, emission credits and additive and consulting business
30	CYBERDYNE Inc. <a href="http://www.cyberdyne.jp/">http://www.cyberdyne.jp/</a>	Research and development of robotic suits that can enhance physical abilities (medical and welfare equipments and systems)
31	GSSM Tsukuba	Developing, maintaining, selling, renting and consulting computer software.
* 32	Kotohaco, Inc. <a href="http://www.kotoha.co.jp/">http://www.kotoha.co.jp/</a>	Developing a natural language "similar search" engine, developing and operating search media for cellular phones
* 33	ArkEngine Co., Ltd. <a href="http://www.arkengine.co.jp/">http://www.arkengine.co.jp/</a>	Analysis of financial market and securities, marketing analysis, surveys, improvement of management efficiency through mathematical methods
* 34	New Forestar Corporation <a href="http://www.newforestar.com">http://www.newforestar.com</a>	Research and development of software, internet information services, mail-order business, etc.
35	Football Club of Tsukuba <a href="http://tsukuba-fc.com/">http://tsukuba-fc.com/</a>	Management of the Futsal Arena and supply of systems of sport club member administration
36	Japan Biomass Corporation <a href="http://www.j-biomass.com/">http://www.j-biomass.com/</a>	Research and development of concentrated waste liquid treatment and waste treatment agents
37	THF Co., Ltd. <a href="http://thfweb.jp/">http://thfweb.jp/</a>	Health consulting systems based on weight loss and physical independence support

No	Company Name	Main products or services
38	Tsukuba Psychological Science Laboratory	Development of psychological examination systems using computer networks, consulting and product development for healthcare based on psychological examination results, consulting for personnel management
* 39	Tsukuba Research Institute, Co. Ltd. (TRI) <a href="http://www.tsukuken.co.jp/">http://www.tsukuken.co.jp/</a>	Consulting on business analysis and IT efficiency diagnostic, support for work reform and system introduction support, system inspection, security diagnostic and system management improvement
40	Somnonics, Co. Ltd. <a href="http://www.somnonics.co.jp">http://www.somnonics.co.jp</a>	Planning and development of screening systems for Sleep Apnea Syndrome, and carrying out Sleep Apnea Syndrome screenings
41	Arenabio, Co. Ltd. <a href="http://www.arenabio.com/">http://www.arenabio.com/</a>	Entrusted bioassay using human cells, research and development of new types of bioassay, research and development of new biologically active agents, obtaining the pertaining rights and form joint ventures
42	Enzyme Micro-biosensor Research and Development, LLP	Research and development of micro-biosensors, research, development, production, sale, licensing-out and consulting of enzymes sensors
43	Tsukuba Sport Intelligence, Co. Ltd. <a href="http://www.tsport-i.jp/">http://www.tsport-i.jp/</a>	Development of goods related to sports, physical education and health science, sports clinic for professionals and amateurs, consulting and management of sports events
44	Medical Interface Corporation <a href="http://www.med-if.com/">http://www.med-if.com/</a>	Creation of vital sensing systems, network administration systems and biosecurity services
45	Dance Association Seeds (DAS) <a href="http://www.das.e-tsukuba.jp/index.htm">http://www.das.e-tsukuba.jp/index.htm</a>	Administration and management of dance studios, training of dance instructors, development of dance lesson methods
* 46	TechTech, Inc. <a href="http://techte.ch/">http://techte.ch/</a>	Development, agent service and consulting of web service and software
* 47	Green Energy <a href="http://www.g-energy.co.jp">http://www.g-energy.co.jp</a>	Research, development and sale of energy devices
48	Visible Intelligence Co., Ltd. <a href="http://www.visiblei.com">http://www.visiblei.com</a>	Internet advertising, design, development and production of merchandize sales systems etc.
49	WELCON Inc. <a href="http://www.welcon.co.jp/">http://www.welcon.co.jp/</a>	Entrusted manufacturing of diffusion bonding, development support for products using precision diffusion bonding, development and sale of devices such as micro heat exchangers, micro reactors, production and sale of diffusion bonding equipments
50	Signal Design, LLC	Wireless technology (signal design technology for highly efficient use of radio frequency resources for mobile communication)
51	Education Design Lab <a href="http://www.educationdesign.jp">http://www.educationdesign.jp</a>	Scientifically based teaching materials and home education programs making use of research results of interpersonal communication (social skills training) Support services for the introduction of 'NetCommons', a Contents Management System (CMS) for educational institutions developed by the National Institute of Informatics (NII)
52	Laughwell, Co. Ltd. <a href="http://www.laughwell.co.jp/">http://www.laughwell.co.jp/</a>	Support services for health-maintenance programs using the Internet or through direct communication, and sale of health-related products
* 53	Jubei Inc. <a href="http://jubei.co.jp/">http://jubei.co.jp/</a>	Computer software development, web database system development, Internet service provider
54	Air Eau Co., Ltd. <a href="http://aireau-microbubble.com/">http://aireau-microbubble.com/</a>	Research and development of environment-friendly products (related to air and water) using a micro bubble generator developed by the University of Tsukuba, and to contribute to the creation of a recycling society
55	Tsukuba GeneTechnology Laboratories Inc. <a href="http://www.tsukuba-genetech.com/">http://www.tsukuba-genetech.com/</a>	Gene appearance analysis business of plants and animals including humans
56	Enzyme sensor Inc.	Development, manufacturing, sales of microorganism enzyme, development, manufacturing, sales of various enzyme sensors, and development of anti-cancerous enzyme medicine
57	Mobile Robot Research Inc.	Planning and development of a mobile robot which works at disaster sites and consulting concerning the application of robot technology
58	New Energy Research Institute Inc. <a href="http://www.ne-ri.jp/">http://www.ne-ri.jp/</a>	Development, sales and consulting of new energy related equipment
59	Tsukuba Materials Research Co., Ltd. <a href="http://www.tsukuba-mr.com/">http://www.tsukuba-mr.com/</a>	Evaluation business of materials using positron disappearance method Business in x-ray optical elements and x-ray microscopes
60	Voiser Inc. <a href="http://www.voiser.co.jp/">http://www.voiser.co.jp/</a>	Research and development of software that centers on multimedia information technology Planning, design and development of solutions using information technology
61	MDD Creative Co., Ltd. <a href="http://www.mdd-creative.com/">http://www.mdd-creative.com/</a>	Research and development, manufacturing, operations, maintenance, sales, and export of software and hardware for information systems, artificial intelligence systems and 3D computer graphics
62	Biotechnology Clear System Tsukuba Research Co., Ltd. <a href="http://www.bcst.co.jp/">http://www.bcst.co.jp/</a>	Development, manufacturing, and sales of water clarification systems, consulting of water regime, development and sales of materials for environmental cleanup, development and sales of health-promoting equipment, waste and recycling business
63	SDS (SAT Delivery System) Corporation <a href="http://www.kksds.com/">http://www.kksds.com/</a>	Offer human resources development service for "communication type independence" based on structured image association method (SAT)
64	New Business Incubation Networks (NEWBIC)	Management of intellectual property rights, operation, study proposal, research support, funded research, and finance guidance, etc.
* 65	Codia Corporation <a href="http://www.e-codia.jp/">http://www.e-codia.jp/</a>	Net shop development and sales supports, website operation, and system designs

\* indicates the companies started by students.

Prof. Sankai, University of Tsukuba / CYBERDYNE Inc.
