Congratulations On Your Enrollment!

Would you like to learn something new? Are you interested in programming?

University of Tsukuba Campus-Wide License provides unlimited use of MATLAB Simulink products to all faculty, staff, and researchers, accessible both on and off campus, on any device (PC and smartphone)!

■What is MATLAB?

MATLAB is a programming language platform offering extensive tutorials and interactive online training. It is easy to get started even if you have never learned programming before! You can perform advanced-level analysis and create interactive applications with engaging visual elements with MATLAB Simulink offering 100+ toolboxes for numerical computation, formula processing, statistics, image processing, signal processing, machine learning, simulation, hardware integrations, and more! Start using MATLAB to enhance your lectures, projects, and research!

■How to use MATLAB?

Step1
Please access the MATLAB portal site for University of Tsukuba at https://jp.mathworks.com/academia/tah-portal/university-of-tsukuba-31487925.html

Step2
Click "Sign in to get started" and start using MATLAB! If you do not have a MathWorks account, click "Create one!" and follow the instructions available on the login portal. Be sure to use your assigned university email address (@u.tsukuba.ac.jp) to setup you Mathworks account to access the University's MATLAB license. https://jp.mathworks.com/mwaccount/register

Step3
You can download and install any available products from the MathWorks page. You can also use MATLAB Online and Simulink Online.

Enjoy your college life with MATLAB!
