

本学での大規模クラスター発生に伴う今後の活動について Upcoming Activities After the UT Large clusters

As you may know, the COVID-19 pre-emergency measures has been lifted on March 21(Mon.). However, in the University of Tsukuba, we just had a couple of “Large Cluster of COVID-19.” One of the clusters comprises more than 50 cases. On top of that, we found out that the above activities were carried out without the University’s permission. We are very disappointed with this matter since we have been asking you to follow the basic guidelines and measures.

Under these circumstances, the TSUKUBA Police Station ask us, the University of Tsukuba, to take proper preventive actions / measures. With that, the University STRENGTHENS the prevention MEASURES as below, though many cities in Japan will soon lift the COVID-19 measure.

Please always keep in mind that our individual actions may affect others. We all need to raise awareness of COVID-19, and take preventive actions to protect each other.

Soon, it is time to welcome new students. Let’s work together and provide safe campus to the incoming students!

1. Extracurricular Activities

Request; Refraining from ALL extracurricular activities

Period; March 19(Sat.) to April 4(Mon.)

① Essential Activities for Regular-season Events (ex. official match, tournament, event, etc.)

Essential practices for the big event can be permitted when the clubs/circles meet the following conditions.

- Carrying out activities under supervision of the Club’s/Circle’s Faculty Advisor.
- Having proof of negative COVID-19 tests (as much as possible)
- Exclusively limited to the Club’s/Circle’s members.

② Official Match (or tournament, big event, etc.) Participation

Mach/event participation can be permitted when the clubs/circles meet the following conditions.

- Following the LOCAL COVID-19 regulations.
- The event taking control of the participants (Not the event open to unspecified number of people)
- In case of the event requires overnight lodging, another special permission shall be required.

(Please check the guidelines “[Guideline for Re-Starting Activities](#)”, “[Arrangements on Group-Activities](#)” and “[【参考様式】課外活動制限下における団体活動に関する申合せに基づく特例許可申請](#)”)

2. Graduation / Completion Ceremony

We ask everyone to refrain from the following non-essential actions;

- Holding celebration parties
- Having meals together
- Taking group photo
- (To: Students other than final year) Organizing a celebration party for SENPAIs

NOTE: Other than the above, please follow the instruction given by the program or course(etc.) you belong to. Especially, those who study in Medical programs shall follow their own preventive measures.
