

Creating a Transborder University for a Brighter Future

The University of Tsukuba aims to create a global research and education environment through the implementation of the Campus-in-Campus Initiative and transcending national, institutional, and all other barriers. The initiative builds on the university's founding philosophy - "university open to all" and creates a "transborder university which opens up Japanese higher education and society to the world."

Transcending national barriers

- ◆ Campus-in-Campus Initiative
- ◆ Course Jukebox
- ◆ Bringing world-class research units from abroad
OR Overseas research and education invitation program

Transcending educational barriers

- ◆ Advancement of existing and creation of new degree programs
- ◆ Establishment of multidisciplinary Bachelor's Program in Global Issues
- ◆ Advancement of collaborative researches based on multidisciplinary approach

Transcending human resource

- ◆ Supporting the active role of women and foreign staff
- ◆ Internationalization of administrative staff
- ◆ Employing highly-skilled professionals

Transcending organizational barriers

- ◆ Campus-with-Campus
- ◆ Strengthen industry-university cooperation
- ◆ Establishment of a supporting structure to promote the Top Global University Project

Transcending society barriers

- ◆ Collaboration with Tsukuba Science City
- ◆ University-high school cooperation / University-professional college-high school cooperation
- ◆ Strengthening of the Alumni network
