

# Requirements for Program Completion

## Doctoral Program in Intelligent and Mechanical Interaction Systems (DP-IMIS)

### 【Requirements of DP-IMIS】

| Course Category  |                               | Required Courses   | Credits | Electively Required Courses   | Credits        |
|--|-------------------------------|--|---------|---|----------------|
| Interdisciplinary Foundation Courses<br>Graduate General Education Courses | Foundation Subjects for Major |  |         | Graduate General Education Courses*<br>Interdisciplinary Foundation Courses*<br>Courses in Other Degree Programs*   | 0              |
|  |                               |  |         |   |                |
| Degree Programs'<br>Common Courses   | Foundation Subjects for Major |  |         | Courses Associated With Other Programs*   | 0              |
|  | Major Subjects                |  |         | Courses Associated With Other Programs*   | 0              |
| Program's Courses  | Foundation Subjects for Major |  |         |   |                |
|  | Major Subjects                | <ul style="list-style-type: none"> <li>•Research in Intelligent and Mechanical Interaction Systems A</li> <li>•Research in Intelligent and Mechanical Interaction Systems B</li> <li>•Research in Intelligent and Mechanical Interaction Systems C</li> <li>•Research Paper Presentation Workshop in Intelligent and Mechanical Interaction Systems I</li> </ul> | 10      | <ul style="list-style-type: none"> <li>•Research Paper Presentation Workshop in Intelligent and Mechanical Interaction Systems II</li> <li>•International Conference Paper Presentation Workshop in Intelligent and Mechanical Interaction Systems</li> <li>•Collaboratory Research Workshop in Intelligent and Mechanical Interaction Systems III, IV *</li> <li>•Research Proposal Writing Workshop in Intelligent and Mechanical Interaction SystemsIII, IV *</li> </ul> | 2<br><br><br>0 |
| Required Number of Total Credits and Graduation Requirements               |                               | The degree (Ph.D. in Engineering) is granted to the students who have earned 12 credits as specified in the table and have passed the review of the Doctoral Thesis and the final examination.   |         |   |                |

\* They cannot be included in the credits needed for graduation.
