| | | Neuroscience Professional Career Development | 1 |
| Foundation Subjects for Major | Neuroscience-related subjects | Required courses | |
| | | Advanced Scientific Research Proposal in English 1 | 2 |
| Major Subjects | Neuroscience-related subjects | Required courses | |
| | | Advanced Neuroscience Seminar 1 | 1 |
| | | Advanced Neuroscience Seminar 2 | 1 |
| | | Neuroscience Dissertation Research 1 | 2 |
| | | Neuroscience Dissertation Research 2 | 2 |
| | | Neuroscience Dissertation Research 3 | 2 |
| | | Neuroscience Dissertation Research 4 | 2 |
| | | Neuroscience Dissertation Research 5 | 2 |
| | | Neuroscience Dissertation Research 6 | 2 |
| Required credits for graduation | | | 17 |

Graduation requirements
To pass the doctoral thesis examination and final examination, students must fulfill the following requirements: be enrolled for a minimum of three years, acquire 17 credits of required courses, and receive necessary research guidance. However, for those who have demonstrated outstanding achievements, a minimum enrollment period of two years in the program may be sufficient.
