Subject Area	Subject Group	Conditions/Subjects	Number of Credits
Major Subject		Required/ Coaching Science Reserch Method I	1
		Required/ Coaching Science Reserch Method II	1
		Required/ Case Study Methods of Coaching Science	1
		Required/ Philosophy and Ethics of Coaching	1
Number of credits required for completion			4

<Requirements of program completion>

Students must be enrolled in the program for at least the standard period of study (3 years), earn the prescribed number of credits (4 credits) by taking the required courses, receive the necessary research guidance, and pass the doctor's thesis defense and final examination.

Note

It is recommended that students take 2 credits from the Inter-disciplinary Foundation Courses and the Graduate General Education Courses. In addition, students who have not completed the master's course in physical education should take about 10 credits of subjects related to specialized knowledge that will serve as the basis for research from the courses offered by the Master's Program in Physical Education, Health and Sport Sciences in the first year.
