Doctoral Program in Informatics
Degree Program in Comprehensive Human Sciences
Graduate School of Comprehensive Human Sciences
(For those who enrolled in or after 2025)

【Study method・Completion requirements】

Course Area	Course group	Condition or Course names	Credits
Major Courses	Seminar	At least 10 credits must be taken for the following. (1) At least 2 credits must be taken from Research Practice Courses (2) 8 credits must be taken from Research Seminar Courses	10～
		Total Required Credits	10

The followings are the completion requirements of the Doctoral Program.

1. Acquire at least 10 credits based on the table above.

Seminars are categorized as stated below.
・ Research Practice Courses: Project Based Learning (2 credits), Research Internship (2 credits)
    Research Instruction (2 credits), MDA-related courses ＊
・ Research Seminar Courses: Informatics Seminar a1 (1 credit) , Informatics Seminar a2 (1 credit)
    Informatics Seminar b1 (1 credit) , Informatics Seminar b2 (1 credit)
    Synthetic Seminar on Informatics IA (1 credit)
    Synthetic Seminar on Informatics IB (1 credit)
    Synthetic Seminar on Informatics IIA (1 credit)
    Synthetic Seminar on Informatics IIB (1 credit)
    Synthetic Seminar on Informatics IIIA (1 credit)
    Synthetic Seminar on Informatics IIIB (1 credit)
    Synthetic Seminar on Informatics E1 (2 credit)
    Synthetic Seminar on Informatics E2 (2 credit)

    ＊ Refer to the Appended table.

2. Acquire all Generic Competences for Doctoral Students and Competences Specified by the Doctoral Program in
    Informatics through taking credits or other research activities.

Competences are categorized as stated below.
・ Generic Competences for Doctoral Students: Knowledge creation competence
    Management competence
    Communication competence
    Leadership competence
    Internationality competence
・Competences Specified by Doctoral Program
    in Informatics: Research competence in Informatics
    Expertise in Informatics
    Ethics in Informatics

3. Give an interim presentation of the thesis theme following the regulations of the Doctoral Program in
    Informatics.
4. Pass the Doctoral dissertation evaluation and final exam.

Note:
1. Students can enroll for external courses (courses other than the Doctoral Program in Informatics) with a
    maximum of 10 credits, but they are not counted as credits of completion requirements.
2. 2 credits must be taken from Informatics Seminar a1, a2, b1, or b2.
3. 6 credits must be taken from the Synthetic Seminar on Informatics IA, IB, IIA, IIB, IIIA, IIIB, E1 and E2.
    However, only students who plan for early completion are permitted to take Synthetic Seminar on Informatics
    E1, E2.
4. Students can enroll for courses of undergraduate schools, Master's Programs and Professional Degree Programs of
    the University to acquire supplementary knowledge, but they are not counted as credits of completion
    requirements.
5. Credits acquired in the graduate school prior to admission or while studying abroad can be accredited for the
    program completion requirements. Those seeking accreditation for credits must submit the necessary application form
    by the designated deadline.
6. In principle, the submitted dissertation will be made publicly available within one year after the doctoral degree
    is granted.
