4   Graduate Program Completion

(1) Master's Programs

(i)   Requirements for Master's Degrees

The Graduate School Steering Committee reviews the academic records of students who meet all the following requirements and determines whether to award them master's degrees:

- The student has enrolled in his/her Master's Program for at least two years.
- The student has earned at least 30 credits for the courses required for a degree specified in the relevant division's detailed rules.
- The student has completed and submitted his/her master's thesis or any specific research assignment under the direction of a member of the Graduate Faculty.
- The submitted thesis or assignment has received a passing grade.
- The student has passed the final examinations.

Note that a student who has achieved excellent research results may be allowed to complete the Program earlier than scheduled (early completion, not applicable at some programs).
