

# University of Tsukuba Application Guide for International Non-Degree Research Students for AY 2023 Admission

Non-degree research students conduct research about a specific research topic under the guidance of an academic advisor. Upon receiving permission from an academic advisor or instructor(s) in charge of courses, Non-degree research students are allowed to attend courses related to their research topic, but they cannot earn credits nor are they eligible to receive Master's or Doctoral degrees. Prior to application, applicants must obtain an informal consent from the academic advisor under whom they wish to study during their research period at our university. The selection is made by a screening of the application documents, therefore, the applicant is not required to come to Japan for the selection. Eligibility criteria clarifies that Non-degree research students must have a bachelor's degree, and it defines that the major purpose for being a Non-degree research student is to prepare for the graduate school admission.

## <IMPORTANT ; About the informal consent and Reference No.>

- Before making application, you must establish direct contact with a faculty member in your study field to obtain their informal consent to be your prospective academic advisor. They will notify you later of the reference number which is required to be entered during the web application process.
- Contact a faculty member 2-3 months in advance of web application, considering that it may take some time before your reference number is provided even after obtaining the prior consent.
- Please visit our website and check "Application Process Overview Chart" to learn how to contact the prospective academic advisor.

### 5. Announcement of Selection Results

For the announcement of selection results, only the examinee numbers of successful applicants will be posted to the website of International Non-degree research students.

URL: <https://www.tsukuba.ac.jp/en/study-tsukuba/research-students>

### 6. Admission Fee, and Tuition (current as of AY 2022)

The Admission Fee and Tuition (29,700 yen/month × research period※) must be paid together at the time of the admission formalities. Admission Fee and Tuition once paid will not be refunded. Please note that Admission Fee and the Tuition are subject to change.

Admission Fee	Tuition
84,600 yen	29,700 yen (per month) × research period※

※: Approved enrollment period until the end of the academic year (the end of March). Please check [ 3. Research Period] for detail.

### 7. Others

Non-degree research students can conduct research about a specific research topic and attend Japanese language training courses offered at the Center for Education of Global Communication (CEGLOC) through the prescribed procedures. Students can start the Japanese language training courses twice a year, in April and October. Please note that in the case of enrolling in December 2021, there are no Japanese language training courses open from December.

### 8. Visa (Certificate of Eligibility) – To successful applicants

Those who passed the selection of international Non-degree research students need to obtain a "student visa". You can apply for a student visa at the Embassy or the Consulate General of Japan in your country.

To get a student visa quickly, you need to obtain a "Certificate of Eligibility" (hereinafter referred to COE) in advance. The application for COE should be made at the Regional Immigration Bureau of the Ministry of Justice of Japan. However, it is not allowed to send necessary documents to Immigration Bureau directly from overseas. Therefore, the University of Tsukuba will apply for new students' COE on their behalf.

As soon as the result of the selection comes out, we will go to the Regional Immigration Services Bureau to apply for a COE to make it in time for your enrollment. Thus we would like you to send necessary COE application documents along with international non-degree research student application documents at the same time of application for research students within the time limit of submission of application documents. Note that the required documents for COE application are not used for the selection of international non-degree

research students.

The required documents list is indicated on the next page. Please check it carefully. In addition, please note that when we find any false information on your application documents, we cannot be a proxy for your COE application. Furthermore, the following people also can be your proxy for COE application: Your relatives or the person who is going to support your study and living expenses living in Japan. If any of them will be your proxy, please contact us with the email address indicated at [10]. If you already live in Japan and need to change your visa status to "Student" or need to extend your current student visa, please contact us with the email address indicated at [10].

\*As soon as the result of the selection comes out, we will submit your COE application to the Tokyo Regional Immigration Services Bureau immediately. Hence, if you would like to decline admission before entering, please contact us with the email address indicated at [10]. We would appreciate your careful consideration and preparation before starting the application to avoid early drop out of the course. Please consider carefully before starting the application not to decline admission after the examination result announcement.
