## II Student and Academic Administration

### 1 Academic Affairs

#### (1) Academic and Emergency Notifications

Students can view on-campus information regarding class cancellation, class bulletin boards, announcement bulletin boards as well as check the status of studies on the Bulletin Board (TWINS). Students can also register and manage their personal schedule on the Bulletin Board (TWINS). The information once posted is considered to be known to all students. Therefore, students are unable to file objections because they have not seen the Bulletin Board (TWINS).

Students are responsible for regularly checking the Bulletin Board (TWINS) to avoid missing out on important information with regard to their studies.

#### Primary Contents (Academic Notifications)

Course-Related Materials, Course Registration, Confirmation of Course Registration, Course Cancellation, Makeup Courses, Change of Course Schedules and Classrooms, Intensive Courses, Final Examinations Schedules, Individual Academic Achievement, Independent Study (Research or Thesis), Special Lectures, Approval of Academic Advancement, Graduation Approval, Summons for Students, etc.

(Note) Schedule management screen of the Bulletin Board (TWINS) indicates classes and class cancellation, but please ensure to check the school year calendar regarding transfer of working days.

#### Emergency Notifications

In case of emergencies, including natural disasters, incidents, or accidents, the University of Tsukuba will send that information to the students via e-mail through the school email address or by posting notifications on the Bulletin Board (TWINS) or at the university website. Please keep in mind that students have to check their email inboxes every day or set up systems to forward any emails to their mobile phones or other private email addresses.

## 2 Student Affairs

### (1) Student ID Number

At the time of enrollment in the University of Tsukuba, all students are assigned a student ID number, which remains the same throughout their undergraduate careers at the University. This student ID number is used in several important official contexts such as course registration and allotment of academic grades through electronic data management. Additionally, to obtain official documents such as attendance sheets, examination papers, academic papers, or official requests or certificates, students should provide their student ID number and names.

Enrollment Year (4 Digit of A.D.)	Type of Student ID Number	Number
2022	1	0001

### (2) Student Name

For official records, the University of Tsukuba uses the name provided by students on a document “Data Coding Sheet for International Students Immigration Matters” for admission procedures.

### (3) Maximum Enrollment Duration

The maximum enrollment duration is the length of time that students are allowed to study at the University of Tsukuba.

- (a) The maximum enrollment duration is 6 years. Students are not allowed to stay longer than this duration.
  - Leaves of absence are not included.
  - Periods of suspension from school are included.
- (b) The University allows transfer students to have an equal length of maximum enrollment duration as other students in the same academic year.

### (4) Payment of Tuition Fees

The payment deadlines for tuition fees are as follows. Please make your payments within each deadline. If students are in the process of applying for tuition fee exemption, they must immediately make the payment after they receive a notification of rejection of tuition fee exemption, which is acceptance of half exemption or acceptance of 1/3 exemption.

Semester	Tuition Fees	Payment Deadline
Spring Semester (Apr 1 - Sep 30)	¥267,900	Last day of May
Fall Semester (Oct 1 - Mar 31)	¥267,900	Last day of November

## Notes

<https://www.tsukuba.ac.jp/en/admissions/guidebook-international-student/>
2. In case there is an amendment to the tuition fees, new fees may apply from the time the amendment becomes effective.

## (5) Change of Student Status

### (a) Leave of Absence (Article 47 and 48, the Undergraduate School Rules)

If students are unable to study for two or more months due to illness, overseas training (excluding study abroad), or other reasons, they are allowed to take a leave of absence upon the approval of the dean of the school. The approved period for a leave of absence ranges from two months to one year.

Students may be able to extend their leave of absence for a maximum of one year. The maximum length for a leave of absence is three years in total, and it is not to be included in the standard school years required for graduation or the maximum enrollment duration.

In principle, international students must go back to their home countries while they are on a leave of absence.

#### Procedure for Leave of Absence

(i) Please obtain a request form for leave of absence at the appropriate Academic Service Office and submit it after consulting with your class instructor. In case of a leave of absence due to illness, you will need to attach a medical certificate issued by a doctor. Furthermore, if involving overseas travel, submission of the itinerary (TRIP) is needed.

(ii) The application deadline for a leave of absence is as follows.

Depending on the leave of absence, the tuition fee for the permitted leave period may be exempted. If the student is planning to take a leave of absence, please consult the appropriate Academic Service Office as soon as possible.

#### **【Example】**

<b>Period of Leave of Absence</b>	Application Deadline	Leave of Absence Authorized Date	<u>Month in Which Tuition Fee is Exempt</u>
<b>April 1–March 31 of the following year</b>	<u>End of February</u> (deadline)	End of March	April–March of the following year (12 months)
<b>July 1–September 30</b>	Until the end of April	End of May	July–September (three months)
	End of May (deadline)	End of June	No exemption (If the permission date becomes after the payment deadline for the spring semester, the tuition fee for the spring semester will not be exempted)

<b>October 1–March 31 of the following year</b>	<u>End of August</u> <u>(deadline)</u>	End of September	October–March of the following year (six months)
<b>The following January 1–March 31</b>	Until the end of October	End of November	The following January–March (three months)

(Note) In principle, it is necessary to submit a “leave of absence application” more than one month in advance.

【Reference】 Relation between tuition exemption and school leave permit date (day on which school leave was permitted)

Leave of Absence Authorized Date (It takes more than one month from submission of leave of absence to permit)	Period covered by tuition fee exemption (monthly basis)
Prior to the spring semester payment deadline (until the end of May)	Period concerning leave of absence for the spring semester · fall semester · the following fiscal year
After the payment deadline (after June)	Only during the period concerning leave of absence in the fall semester and the following fiscal year

- (ii) If students return to school during the period of their leave of absence, they need to submit a request form for their re-enrollment to be approved.

Example

A student has been allowed to take a leave of absence from April 1 to March 31 of the following year; however, from the fall semester (October 1), he or she would like to return to school after his or her recovery from illness.

This student may be able to register the courses offered in the fall semester upon submission and approval of the re-enrollment form. Tuition must be paid by the deadline.

Re-enrollment Procedure

- (ii) If students return to school after recovery from illness, they should submit a medical certificate issued by a doctor.

If approved, the length of time of the study abroad is included into the standard school years required for graduation and the maximum enrollment duration. Upon the approval of the Education Council of the schools or colleges, a maximum of 60 credits from study abroad may be added to the graduation requirements. Any credits earned before enrollment, in leave of absence, or from other universities while studying at the University of Tsukuba are also included in this 60-credit limit.
- (ii) There is no guarantee that all credits earned from a study abroad will be approved. Students need to examine course contents offered at the host universities concerning their compatibility with academic courses at the University of Tsukuba. If students wish to transfer earned credits, they should consult with their class instructor and the appropriate Academic Service Office.
- (iii) The maximum length of time approved for a study abroad is one year. However, if compelling reasons exist, students may be able to extend their study abroad for one additional more year. Please keep in mind that the total time of any study abroad cannot exceed two years.
- (iv) When students are unable to complete courses at the University of Tsukuba due to a study abroad, the University allows them to continue taking the courses after returning to Japan. For more details, please consult with the appropriate Academic Service Office.
- (v) When students complete the study abroad, within one month after returning to Japan, students

must write an academic report on their experience, prepare official transcripts issued by the host university, and submit these documents to the dean of the school via the appropriate Academic Service Office.
