

Qualification Screening Details

● 4-year Doctoral Program in medicine

Please confirm the eligibility of applicants by referring to "1 Eligibility for the General Admissions" below. However, some selection methods have requirements depending on the selection method, so please check the application guideline carefully.

Those who fall under "B. Applicants who need to be screened for eligibility" may apply for the Screening of Eligibility (Note 1) prior to application, and may apply if their eligibility is approved as a result of the screening.

(Note 1) Screening of Eligibility means that the graduate school of the university will examine whether or not the applicant has academic ability equivalent or superior to that of a university graduate before the application.

1. Eligibility for General Admissions

Applicants to the Graduate School may apply to the Graduate School if they meet any of the following criteria.

A. Those who do not need to be screened for eligibility
