Additional measures for the change in the timing of entrance into the university to the special measures that take into account the impact of the spread of COVID-19

The “Special measures for the status of students, etc. contingent to the spread of COVID-19” have been enforced as of May 28, 2020, however, at this time, we would like to notify you that the change in the timing of the entrance into the university to April 1, 2021 of prospective students for the fall semester (including those who have already changed the timing of their entrance into the university from April to October) has been approved as additional measures as of September 24. Those who would be interested in these measures should immediately confirm the application procedures, etc. with the person in charge of academic affairs in the affiliated academic service office.

SHIMIZU Satoshi

Vice President for Education
